## Lista de defeitos

### Diagrama de Comunicação

#### Programar um voo

- A classe aeroporto está recebendo informações direto do viewer, e repassa para o controlador de voo. Esse repasse de mensagens deveria ser feito por um controlador de fachada que chama um método do controlador de voo. Outra opção seria enviar as mensagens do viewer diretamente para o controlador de voo.
- A numeração dos métodos está incorreta. Numerar as chamadas dos métodos de maneira aninhada.

### Diagrama de Classe

- Informar a multiplicidade das classes.

-   G-Nozawa moved this from Awaiting review to Done in **Sistema de Venda de Passagens Aéreas** on Nov 27, 2022
-   G-Nozawa closed this as completed on Nov 27, 2022

  GuiCT assigned GuiBatalhoti and unassigned G-Nozawa on Dec 12, 2022
